

## *Time for a change?*

It's been a while since we've met with you for a consultation and fitting. Weight loss or gain, exploring new recreational activities, along with other life changes may call for a change in your breast form and/or bra. Staying up-to-date on fittings will keep your wardrobe fresh and fashionable.

Over time, bras tend to lose their shape and offer less comfort. We have new additions to our American Breast Care line. You should come in to try the latest in bras and breast forms.

Give us a call and we'll set an appointment. See you soon!

Remember, many post-mastectomy products may be covered by Medicare and other private insurances.
